EXPERIENCE

2010 - Present

MAVEN GALLERY

Product/Graphic Designer & Management

Currently I manage all aspects of the gallery's online and printed media, I designed and maintain the website, all information literature, social media and maintain the computers and IT software/hardware.

I have generated new revenue streams through online sales that allowed us to continue trading through lockdowns

2014 - 2018

GREY-HARRIS & CO

IT and Design Consultant

I provided IT support, upgrading all systems and digital platforms to allow the company to promote their stock and services 24/7 this resulted in an increase in sales and more specialist work being undertaken. I also provided photography services to better promote stock and worked with the owner to take accounting from book and ledger to digital methods

2014, 2015, 2016 & 2017

24 HOURS IN OUR CITY

Events Organiser and IT Management

I developed the concept, managing a team of web designers, graduate placement students and admin assistants to build a national photographic competition, revolving around the website allowing the competition to run online.

I pitched the idea to local companies and government securing essential sponsorship and endorsements.
